General Information Regarding Annuities.

Deferred Annuities are issued under two Plans, viz. : Plans 'A' and 'B'. On Plan 'A' it is provided that in case of the death of the annuitant before the annuity begins, the purchase money with compound interest thereon at three per cent per annum will be returned to the legal representatives of the annuitant. On Plan 'B' where the same annuity may be obtained for smaller payments, there would be no return of any portion of the purchase money.

On Plan 'A', 204 contracts have been issued ; and on Plan 'B', 40.

Payments may be made to the Department direct, or through the postmaster of any Money Order Office, and by him remitted to the Department. The postmaster is allowed a commission of one-third of one per cent on all amounts paid to him. An annuity may be purchased by or for any person between the ages of 5 and 85, but no annuity may be received before the age of 55.

The rights of an Annuitant are not saleable, or transferable, except that the Statute provides that the purchaser of an annuity may have a portion of it (not exceeding one-half) made payable to his wife. In the case of the purchasers of deferred annuities this is considered to be a most valuable privilege.

A number of employers are in communication with the Department as to a plan by which they may assist their employees in securing annuities, and the following table has been furnished by the Superintendent of Annuities as an example of the cost of an Annuity of $250, to begin at age 60, to men commencing to pay between the ages of 21 and 50, where the employer assists by a contribution of $10, on Plan 'B' irrespective of age, and the employee bears a part of the cost on Plan 'A' or 'B' as he may choose. A separate contract would be issued to each man.

EXAMPLES OF THE COST OF AN ANNUITY OF $250 WHERE EMPLOYER AND EMPLOYEE CO-OPERATE, ANNUITY TO BEGIN AT AGE 60, PAYMENTS TO BE MADE FROM COMMENCING AGE TO AGE 60.

1. Column 1 shows amount of Annuity which a payment by the Employer of $10 a year from commencing age to age 60 would purchase on Plan 'B', under which Plan there would be no return of any portion of purchase money should Annuitant die before 60.

2. Column 2 shows the amount remaining to be purchased by the Employee to bring Annuity up to $250.

3. Columns 3 and 4 show the annual rate to be paid on Plan 'A' or 'B' to purchase amount of annuity in column 2. (On Plan 'A' should Annuitant die before 60, all payments made with three per cent compound interest would be returned to the purchaser or his legal representatives.)

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendments thereto, viz.: as per 50–51 Victoria, chapter 35 (1887) and 55–56 Victoria, chapter 25 (1892).

These general Acts were repealed by the Act 63–64 Victoria, chapter 32, which came into force Jan. 1, 1901. There has been since then one amendment thereto, viz.: as per 2 Edward VII., chapter 5 (1902).

The Act 63–64 Victoria, chapter 32 (1900) and Act 2 Edward VII., chapter 5 (1902), are repealed by the Act 3 Edward VII., chapter 8 (1903), which came into force January 1, 1904.

All previous Acts in force were consolidated in the Revised Statutes of 1906 under chapter 95, and in July, 1908, amendments thereto were enacted, viz.: 7–8 Edward VII., chapter 14.

The administration of the Act was by Order in Council of September 1, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of March 13, 1893.

(a) Prior to 1903 one-fourth of all entry dues paid by Chinese immigrants (less cost of collection) at the end of each fiscal year was paid to the Province wherein it was collected. Commencing in 1903, under 2 Edward VII, Chap. 5, one-half the amount is refunded to the respective provinces.

(b) On account of small collections no payments were made to the Provinces for 1905 and 1906, but were included in the refunds for 1907.

TRADE COMMISSIONER SERVICE.

Continued Extension During the Year.

The Canadian Trade Commissioner Service now comprises eighteen Trade Commissioners and six Commercial agents, an increase of three during the year. The policy of gradual extension has been continued in that three new offices were opened, viz., in Belfast, Ireland; Havana, Cuba, and a special Trade Commissionership created with jurisdiction in Holland, Denmark and Germany. These appointments were filled respectively by Mr. F. A C. Bickerdike, Mr. E. S. Kirkpatrick and Mr. W. T. R. Preston, lately transferred from Yokohama, Japan.

Owing to the death of the late Mr. Alex. J. McLean at Shanghai, at least one additional appointment and several transfers were made. Mr. J. B. Jackson was moved from Leeds to the post left vacant by Mr. McLean's death, Mr. J M. Mussen being gazetted in his place. Mr. G. A. Harris succeeded Mr. Preston at Yokohama.

WEEKLY REPORT.

SCOPE OF REPORT BROADENED.

The Weekly Report continues as a valuable medium for disseminating the information furnished to the department by the Trade Commissioners and Commercial Agents. In addition to the reports sent regularly by the various offices of the service, an effort has been made to increase its usefulness by directing the investigations of the Trade Commissioners along lines suggested by the department with respect to different phases of trade development and then publishing the results of these inquiries simultaneously. All items of interest to manufacturers and exporters which pass through the department are also condensed for publication.

There are now 3,300 copies sent out weekly to every part of the Dominion. This represents an increase in circulation of 350 during the year, or over 800 in two years. This publication is mailed to applicants in Canada free of charge.

The net increase for the year is 136, but there has been a decrease in Track Buyers of 18 and Space in elevators 4, making the gross increase 158, nearly the whole of which can be credited to Country Elevators and Warehouses.

As pointed out in some of the preceding reports, all license holders are bonded, thus securing the grain growers and others interested against loss in marketing the grain.

1908-1909

Terminals.

The 10 Elevators classed as terminals and the three Ontario Elevators called milling elevators are owned and operated as follows:—

At Port Arthur, Ontario, the Canadian Northern Railway own two with a capacity of 3,750,000 and 3,250,000 bushels, respectively. These are operated by the Port Arthur Elevator Company.

There is also at Port Arthur, on the line of the Canadian Pacific Railway, the elevator of Jos. G. King & Co. with a capacity of 750,000 bushels.

At Fort William, Ontario, the Canadian Pacific Railway own and operate three with a respective capacity of 3,100,000, 2,458,000 and 2,219,700 bushels each.

The Empire Elevator Company has one of 1,750,000 bushels capacity, the Consolidated Elevator Company one of 1,000,000 bushels, the Ogilvie Flour Mills Co. one of 500,000 and Davidson, Smith & Co. one of 75,000 bushels capacity.

At Keewatin, Ontario, the Lake of the Woods Milling Company have two milling elevators having a capacity of 750,000 and 550,000 bushels respectively, and at Kenora the Maple Leaf Flour Mills Company has one of 400,000 bushels capacity.

There are also the Eastern Transfer Elevators numbering 18 with a combined capacity of 14,776,000. They are situated at the Georgian Bay and Lake Huron Ports, Kingston, Prescott, Montreal, Quebec, West St. John, St. John and Halifax.

The greater portion of the grain taken into the hundreds of smaller elevators in the West and also shipped from loading platforms at country points there, finds its way into the terminals at the head of Lake Superior, and is shipped from there to its ultimate destination, the bulk for the crop year going to Georgian Bay and Lake Huron Ports, Montreal, Kingston and Prescott, although over 17,500,000 went to Buffalo and other United States ports In addition to this there was shipped to Duluth by rail over the Great Northern 1,566,700 bushels. This latter quantity would be shipped out in bond to Great Britain by way of Buffalo, Montreal, Kingston or Depot Harbour.

The total shipments by vessel and rail from Fort William and Port Arthur, since September, 1899, are shown elsewhere in statement No. 19, page 28.

Interior or Country Elevators.

In the three provinces of Manitoba, Saskatchewan and Alberta (including three for British Columbia) there are 1,452 elevators; one has a capacity of 350,000 bushels, one 250,000 bushels, one 225,000 bushels, two at 160,000 bushels, three at 150,000 bushels, two at 125,000 bushels, one at 110,000 bushels, one at 103,000 and four at 100,000 bushels capacity.

They run all the way from 4,000 to 350,000 but the bulk of them are of 25,000 or 30,000 bushels capacity. Excluding the sixteen (16) that run from 100,000 upwards the average for the remaining 1,436 would be 29,736 bushels capacity.

Warehouses.

The 43 warehouses operated during the year had a total capacity of 326,400 bushels, the one with the greatest capacity containing 26,000 bushels, and the least 2,400 bushels, the average capacity being 7,590 bushels.

No. 7.—STATEMENT showing quantity of each kind of grain handled by the Interior Elevators in the Provinces of Manitoba, Saskatchewan and Alberta with the line of railway on which they are located. Also quantities shipped over loading platforms and total shipments.

While the percentage of surveys held in 1908, was comparatively low, and that showing the "Inspector's grade not sustained," strikingly low, those for the crop year 1909 and the following 4 months are considerably lower.

Considering the great number of cars inspected for the periods shown above, and the the variety of grades for each kind of grain, the small number of surveys held, and the low percentage of these not sustained, the results speak favourably for the manner in which the work of inspection is performed.

As the above figures indicate Canada for 1908, ranks ninth in the world's wheat producing countries, which puts her up one place above the two preceding years.

In average yield per acre, Canada exceeds her chief competitors in the European market. They are per acre, as follows: Russia 10 bushels, United States 12 bushels, and Argentina 13 bushels.

Canada in 1906, produced 19 bushels and in 1908 16 bushels per acre.

It is a notable fact that the countries producing the largest quantities of wheat, have the least yield per acre.

As shown in the foregoing statements, Canada ranks sixth on the list as a producer of oats for 1906 and 1907, but takes fifth place in 1908. For the three years mentioned Canada ranked eighth in the world's barley production.

The position thus held in the production of these cereals should at this period of the country's progress, prove gratifying to all Canadians.

5. The round trip for each of the said steamships shall begin and end at Sydney in the State of New South Wales, calling at Brisbane, Fiji, Honolulu and the outer wharf in the City of Victoria on each and every voyage as aforesaid. The first voyage in performance of this agreement shall commence and be made from Sydney aforesaid on the second day of August one thousand nine hundred and nine and subsequent voyages after the first shall commence and be made from Sydney aforesaid on dates and at times to be from time to time appointed for that purpose by the minister. The duration of each voyage from Brisbane to Vancouver and from Vancouver to Brisbane shall not exceed twenty-two and a half days including detention at Honolulu on each voyage both outward and homeward, provided always and it is expressly agreed by the contractors that the duration of the voyage by the *Makura* shall not exceed 21½ days, and provided also that during the months of March, April, May, June and July in the year 1910 the contractors shall replace the said steamship *Moana* by the steamship *Marama* or *Manuka* or other steamship equal thereto, and that the duration of each voyage from Brisbane to Vancouver and from Vancouver to Brisbane during the said months of March, April, May, June and July by the said steamship *Marama* or other steamship shall not exceed twenty-one and a half days.

4. The said service shall be four-weekly and the said steamships shall leave the said ports of Sydney, Brisbane and Vancouver on the days and at the time to be from time to time appointed for that purpose by the minister after consultation with the Postmaster General of Australia. Each voyage shall be deemed to commence as soon after the completion of the embarkation of the mails intended to be thereby conveyed as having regard to practical considerations the anchor of such vessel can be weighed or the vessel can be loosed from its moorings and each such voyage shall be deemed to be completed when the vessel has arrived and been anchored or moored at some position in the port of destination from which the mails can be conveniently disembarked and the times of the commencement and completion of every voyage shall be ascertained and recorded by the officers of the minister in pursuance of arrangements to be made from time to time by him for such purpose and the decision of the minister as to all questions relating to any such times or periods shall be final and conclusive.

No discrimination to be made against Canadian ports, railways, merchants or shippers.

7. No discrimination shall be made as regards tariff rates for either freights or passengers in any manner directly or indirectly against any Canadian ports or against any Canadian railway or railway company or against any Canadian merchants or shippers, but Canadian merchants or shippers shall at all times have preference for the carriage of their goods over other merchants and shippers as far as regards the Canadian connection.

Carriage of Mails.

8. During the continuance of this agreement the said steamships shall at the cost and expense of the said contractors receive and carry on each and every voyage all such mails as shall be or may be tendered for conveyance to the said steamships or to the masters or any officers on board of the same at the ports of Vancouver and Victoria aforesaid by or on behalf or under the direction of the minister for the time being his officers, agents or servants and shall deliver such mails at their proper ports of destination upon the sailing route of the said steamships, as herein indicated, and in order to the due and proper performance of this covenant the said steamships shall each be provided with sufficient and convenient accommodation and protection for all such mails to the satisfaction of the minister for the time being and the contractors shall further take all reasonable and necessary precautions for the protection of such mails while upon the said steamships, from loss, damage or injury in any way, and shall be responsible for any loss or damages thereto caused by the negligence or want

of proper care or accommodation on the part of the contractors, or their agents or servants, or on the part of the officers or employees or crew on board of the said steamships, and in this connection it is specially covenanted and agreed by the contractors that this agreement shall be subject to the steamships to be employed in carrying the mails thereunder having on board in the pay of the contractor labour approved of by the minister.

Delay of steamers for twenty-four hours to receive mails.

16. The minister shall, in case of need and for the purpose of duly forwarding such mails as may be required, have the right to delay the sailing of any of the said steamships for the space of twenty-four hours, but in no case shall the minister exercise the right hereby conferred after the delivery on board such steamships in the ports of Vancouver and Victoria of the mails from Canada and other places intended for conveyance thereby which mails shall be delivered on board with all reasonable despatch.

Assignation, etc., of Contract.

20. This agreement shall not nor shall any right or interest therein be assigned, underlet or otherwise disposed of without the consent in writing of the minister to such assignment having been first obtained, unless it be to a Limited or Joint Stock Company, of which the contractors shall be principal shareholders or stockholders.

Manifests, customs certificates, and other proof of performance of service to be furnished.

21. The contractors shall from time to time furnish to the minister full and complete copies of the manifests of the cargoes and lists of the passengers carried by each of the said steamships on its outward and its homeward voyages certified by the proper customs officials and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamships, and such other customs certificates, documents and evidence as may be necessary, or as may be reasonably required by the minister to prove the performance of the service herein contracted for and to enable the minister to judge as to whether this agreement is being properly and faithfully carried out and performed, and the furnishing of such certificates, documents, information and other evidence as hereinbefore specified, shall be a condition precedent to the payment of the subsidy hereinafter provided or any portion thereof.

Amount of subsidy: £37,090 18s. 2d. per annum.

22. That the minister shall pay to the contractors subject to their faithful performance of all covenants, agreements and stipulations to be performed on their part, pursuant to this agreement, a subsidy of thirty-seven thousand and ninety pounds eighteen shillings and two pence (£37,090 18s. 2d.) per annum, in proportionate instalments for each and every round trip performed by each of the said steamships in accordance with the intention of this agreement, provided however, that no amount or instalments of subsidy shall be payable at any time unless it appears to the satisfaction of the minister that up to the time of such payment there has been no breach on the part of the contractors of any of the covenants, provisions or stipulations of this agreement.

Deductions from Subsidy.

23. If at any time or times the mails required to be conveyed by the contractors under this agreement between Vancouver and Sydney and vice versa shall not be conveyed from Vancouver to Brisbane, or from Brisbane to Vancouver, within the respective periods of transits hereinbefore prescribed in that behalf, then, and so often as the same shall happen there shall be deducted from the subsidy which but for this provision would be payable to the contractors a sum of thirty pounds (£30) for every complete period of twenty-four hours by which the time actually occupied in the conveyance of such mails from Brisbane to Vancouver, or Vancouver to Brisbane, as the case may be, shall have exceeded the period of transit hereinbefore prescribed in that behalf, provided always, that no deductions shall be made from the said subsidy by reason of any such default or failure as in this clause mentioned which may be proved to the satisfaction of the minister to have arisen wholly or in part from any cause or causes altogether beyond the control of the contractors.

Deductions from subsidy are not penalties.

24. Each of the deductions hereinbefore mentioned and hereby agreed to be made shall be made and the subsidy be reduced accordingly although no damage or loss shall have been sustained by reason of or in connection with such default and (except in such cases as in the last preceding clause hereof expressly provided) from whatever cause or causes any such failure or default shall have arisen and no such deduction shall in any case be deemed to be a penalty or in the nature of a penalty, and the payment by the minister of what shall from time to time remain due in respect of the said subsidy after making any such deductions as aforesaid, shall in no case prejudice the right of the minister to treat the failure of the contractors to provide an appropriate vessel at any appointed place or time or to perform any service at or within the appointed period as a breach of this agreement.

Termination of Agreement.

25. This agreement shall remain in force until thirteen round voyages have been performed according to the true intention of these presents, provided that the minister shall have the right at any time by giving notice in writing under his hand, to determine this agreement and every matter and thing herein contained if it shall appear to him that there has been any material breach on the part of the said contractors of any of the covenants, stipulations, agreements or provisions herein contained and entered into on the part of the contractors, and it is hereby declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach and his determination shall be final and conclusive.

Substitution for Disabled Steamers.—No Member of Canadian House of Commons to be Admitted to Share of Agreement.

26. Provided, however, and it is the true intent and meaning of these presents that if the said steamships any or either of them or any steamship replacing either of such steamships under this proviso shall be by the perils of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing their voyages according to the true intent and meaning of the agreements, stipulations and provisions herein contained, such loss or disability shall not be deemed to be a breach of these presents or any matter or thing herein contained, but the said contractors shall in such case, as soon as reasonably may be, having regard to the circumstances, replace the said steamships or steamship so lost or destroyed by others or another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister, or to the like satisfaction and approval repair the damage done in case the said steamship has been only temporarily disabled and continue the said service herein contracted for with such substituted or repaired steamship with as little loss of time as possible under all the circumstances, provided always that there shall be no payment of any subsidy in respect of any voyage not actually and fully performed, provided further that the minister shall be the sole judge and have the final right of determination as to whether any suspension or temporary discontinuance of or delay in the said regular four-weekly service has been actually caused by the perils of the sea or other unavoidable casualties within the meaning of this proviso and his finding and determination thereon shall be conclusive. It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Period of Contract.

1. 'The contractors owning or controlling in their capacity aforesaid the steamers *Virginian* and *Victorian*, each of guaranteed seventeen knots effective speed, and other

Steamers to be Employed.

2. 'Until the said eighteen knot steamers are ready to commence running, the service shall be performed by the steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be necessary for the effectual running of the service, and as may be approved by the minister.

3. 'The contractors agree to build and place in the service by August 1, 1907, two steamers guaranteed to develop twenty knots on their trial trip on the measured mile, and of guaranteed eighteen knots effective speed.

Number of voyages per annum.

4. 'The steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be approved by the minister shall, until the two eighteen knot steamers have been placed in the service, perform ten complete round voyages per annum each, and after the two eighteen knot steamers have been placed in the service, they and the *Victorian* and the *Virginian* shall each perform ten complete round voyages per annum.

Subsidy: Amount per voyage.

The subsidy is as follows:

(*a.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of eighteen knots per hour, 2,500 pounds sterling.

£3,000.

(*b.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of eighteen knots per hour, 3,000 pounds sterling.

£2,000.

(*c.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of seventeen knots per hour, 2,000 pounds sterling.

£2,500.

(*d.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of seventeen knots per hour, 2,500 pounds sterling.

£1,000.

(*e.*) For each complete round voyage performed at the rate of fifteen knots per hour, 1,000 pounds sterling.

Time of Payment.

'Such subsidy being payable at the end of each quarter for all voyages fully run and completed during each quarter, that is, at the close of the months of September, December, March and June, during the continuance of this contract; provided, however, that no amount or instalment of subsidy shall be payable or paid at any time unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to dates of sailing, speed and duration of voyages, have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; and it is a further condition of this contract that the contractors shall, on the completion of each voyage, furnish the minister with such certified extracts from the steamer's log, together with track charts of the voyage, or any other information required, as will enable him to determine whether the service on such voyage has been within the requirements of this contract.

Withdrawal of Vessels.

(*a.*) 'Provided always, that at no time during the continuance of this contract, except for thirty days between any fifteenth day of December and the following fifteenth day of February, shall more than two vessels of the seventeen and eighteen knot class be withdrawn at the same time from the service hereinbefore described.

Winter Service.

6. 'It is further understood and agreed that the service to be performed during the season of closed navigation on the St. Lawrence shall be as follows:—

'Between the port of Liverpool and the ports of Halifax and St. John, one of the said steamers sailing on each westbound trip from Liverpool each Thursday, or on such other day as may be approved by the minister, for Halifax and St. John, and calling at Moville for the embarkation of the mails, if the call at that port be adhered to, and at Halifax for the landing of such mails; and one of the said steamers sailing on each eastbound trip from St. John each Saturday, or on such other day as may be approved by the minister, for Liverpool, calling at Halifax for the embarkation of the mails, and at Moville for the landing of such mails, if the call at that port be adhered to; it being understood and agreed that if from any cause it should prove impossible for the steamers performing the service to secure sufficient cargo at St. John during the winter season, or if at any season there is inadequate accommodation in the harbour at St. John for any of the said steamers, the minister may, in his discretion, relieve the contractors from the obligation of proceeding to or starting from that port on any particular voyage or voyages.

Summer Service.

7. 'It is further understood and agreed that the service to be performed during the season of open navigation on the River St. Lawrence shall be as follows:—

(*a.*) 'On all voyages from Montreal and Quebec eastward to Liverpool the steamers shall be at liberty to proceed by way of the Straits of Belle Isle, and upon all such voyages the port of call below Quebec shall be Rimouski for the embarkation of the mails and at Moville (if the Moville call be adhered to) for the landing of the mails.

(*b.*) 'On all voyages westward from Liverpool the steamers shall call at Moville for the embarkation of the mails (if the Moville call be adhered to) and shall

be at liberty to proceed by way of the Straits of Belle Isle, and on all such voyages the port of call below Quebec shall be Rimouski for the landing of the said mails.

(*c.*) 'On all voyages eastward or westward from or to Montreal and Quebec via Cape Race the port of North Sydney may, at the option of the minister, be substituted for the port of Rimouski for the embarkation or landing of the said mails.

Tenders at Rimouski and North Sydney.

8. 'It is understood and agreed that at Rimouski and North Sydney the mails are to be delivered to and received from tenders supplied by the postal authorities of Canada.

Distances.

9. For the purpose of this contract the following shall be understood to be the distances between the points hereinafter mentioned, *i.e.*, between Moville and Rimouski via Belle Isle, 2,300 miles, and between Moville and Rimouski via Cape Race, 2,500 miles, except when it may become necessary for steamers to deviate to the southward to avoid ice, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,800 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Halifax and Moville, 2,255 miles, except when it may become necessary for steamers to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,550 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Moville and Sydney, 2,105 miles, except when it may become necessary to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,405 miles, shall for the purposes of this contract be taken to be the distance aforesaid.

Cold Storage.

10. 'It is understood and agreed that each steamer while run under this contract shall be fitted with adequate cold storage accommodation to the satisfaction of the minister.

Average rate of speed. (See also clause 5).

11. 'The contractors bind themselves to run each of the three classes of steamers hereinbefore referred to at the average rate of speed for each voyage as specified in clause 5, in performing the several voyages from port to port, unless in the opinion of the captain of said steamer the said rate of speed would endanger life or the safety of the ship, or unless the speed of the ship is delayed by reason of fog, ice, snow or stress of weather, or by assisting ships in distress, in any of which events the contractors shall submit to the minister the captain's explanation of the cause of the delay, and such other evidence as the minister may require to enable him to determine, and the minister upon such explanation and evidence shall determine whether the circumstances were such as justified the captain's reduction of the speed of the voyage or sufficiently explain the delay in completing the voyage, and in all cases where such failure to maintain the said average rate of speed is deemed justifiable or sufficiently explained the minister may, in his discretion, omit the voyage in question in calculating the average for the quarter in which such voyage took place, or may deduct the period of such delay in calculating such average.

Deductions for delays.

12. 'If during any quarter the mails carried by the steamers *Victorian* and *Virginian* and the two eighteen-knot steamers are not conveyed from port to port at the average rate of the speeds specified in clause 5 for the said four steamers after omitting voyages and deducting delays as provided in the last preceding clause, or if during any quarter the mails carried by the fifteen-knot steamers required for the carrying out this contract are not conveyed from port to port at the average rate of speed specified in clause 5 for the said fifteen-knot steamers, after omitting voyages and deducting delays as provided in the last preceding clause, then, and so often as the same shall happen, the contractors shall furnish to the minister the certified logs of the captains of the steamers showing the causes of the delays, and there shall be deducted from the subsidy payable to the contractors for the said quarter a sum equal to five per cent of such subsidy for every one-quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of this contract.

Average rate of speed between December 15 and February 15.

Provided, however, that for the period between any fifteenth day of December and the following fifteenth day of February when steamers of different classes are employed in the service, the average rate of speed shall be arrived at by taking the average of the speeds of all the steamers employed in the service during the said period.

Maximum deduction.

'Provided further, that the total amount of the sum deducted in respect of such default or failure of either of the two classes of steamers mentioned in this clause shall not exceed the full amount of the subsidy allowed the said class for the quarter or period in question.

Subsidy for fifteen-knot Steamers.

13. 'Subject to the provisions of clause 11 hereof, the other steamers required for the carrying out of this contract, and which may from time to time be approved by the minister as provided in clause 2 hereof, shall when in service be entitled to receive a subsidy which will bear the same proportion to the sum of £1,000 as the actual speed made by the said steamers will bear to the speed of fifteen knots per hour.

Freight and passenger rates.

14. 'It is further understood and agreed that the tolls to be charged in the way of either freight or passenger rates between ports on both east and westbound trips shall always under substantially similar circumstances and conditions, be charged equally to all persons, and at the same rate, whether by weight or otherwise, in respect of all traffic of the same description and receiving in carriage the like accommodation; and further, that no toll shall be charged which discriminates against Canadian merchants or shippers or against emigrants to Canada.

Provisions for renewal of Contract.

15. 'If the contractors comply with the terms of this contract then at the expiration hereof His Majesty will enter into a new agreement with the said contractors for a further period of five years for payment to the contractors of such subsidy as His Majesty may then be prepared to pay to any one, provided the contractors by

such new agreement will then undertake to perform such service as His Majesty may then require during the said new five-year term, in such manner and upon such conditions as His Majesty may then prescribe.

Termination of Contract.

Section 28 referred to in section 1, reads as follows:—

28. 'It is declared to be the true intent and meaning of these presents that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.'

The Atlantic service is performed by Messrs. Elder, Dempster and Company, of Liverpool, England, under terms of a contract bearing date November 8, 1909, and which expires on September 15, 1910. The principal provisions, aside from those common to all contracts, are as follows:—

1. 'The contractors owning and controlling the steamships of the gross and net tonnage hereinafter mentioned, viz.: the *Sokoto* of 3,092 gross and 1,969 net; the *Bornu* of 3,238 gross and 2,070 net; each having passenger accommodation for not less than 60 first-class and 20 second-class passengers, and guaranteed as rating at Lloyds 100 A1, did on or prior to the fifteenth day of September last prior to the date of these presents, place such steamships or such others approved by the minister as were necessary to fulfil the terms of this agreement, on a route between the Dominion of Canada and the Republic of Mexico as hereinafter stated, and have since that date and will continue to maintain therewith until the fifteenth day of September, in the year 1910, a monthly service, as follows:—

(*a.*) From the port of Montreal during the season of open navigation on the River St. Lawrence, calling at—

(1.) Charlottetown, in the province of Prince Edward Island, whenever reasonable freight or passengers are offered from that port.

(2. Halifax, in the province of Nova Scotia.

(3.) Nassau, in the Bahama Islands, and

(4.) A port or ports in the Island of Cuba;

extending each and every such voyage to and calling at the ports of Progresso, Vera Cruz and Tampico, and, when required so to do by the minister, at Coatzacoalcos, in the Republic of Mexico, and upon all return voyages calling at Halifax and, at the option of the contractors, at a port or ports in Cuba and at Nassau.

(*b.*) During the season of closed navigation on the River St. Lawrence, from the port of Halifax, N.S., to the ports in Mexico hereinafter stated, calling at Nassau, in the Bahama Islands, and a port or ports in Cuba to the ports of Progresso, Vera Cruz and Tampico, and, when required so to do by the minister, at Coatzacoalcos, in the Republic of Mexico, and returning from the said Mexican ports to Halifax, N.S., and calling, at the option of the contractors, at a port or ports in Cuba and Nassau.

(*c.*) The sailings from the Canadian ports of departure being at regular intervals on such fixed dates as may be sanctioned by the minister; such dates to be advertised at least twenty days in advance of each of the respective sailings.

Speed.

2. Each of the said steamers while employed as herein agreed shall, on all north and south bound voyages, run at an average speed of not less than ten knots per hour, extraordinary conditions of the weather excepted.

Subsidy, $50,000 per annum.

3. Subsidy is payable at the rate of fifty thousand dollars ($50,000) per annum, in monthly payments of four thousand one hundred and sixty-six dollars and sixty-six cents ($4,166.66) on the completion of each monthly round voyage so run in compliance with the terms of this agreement.

Time-tables—Deductions from Subsidy.

5. 'It is understood and agreed to be a further condition of these presents that the contractors shall from time to time furnish the minister with time-tables showing the proposed sailings, and upon the same being approved by the minister they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substitute steamer sanctioned by the minister, does not sail from a terminal port as herein specified within three days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure of sail from such terminal port; provided, however, that the minister may authorize any vessel to sail at an earlier or a later date than that specified in such time-table should he for any reason deem it advisable to do so.

Clause 8 provides that freight rates on both north and south bound trips are to be approved by the minister.

Freight and passengers to be routed via I. C. R.

Clause 9 provides for the delivery of freight from Mexico to the I. C. R. at Halifax, unless otherwise routed by shippers or consignees; under condition that the freight rates on the I. C. R. at Halifax, provided that such routing is controlled by the contractors.

Freight for export to Mexico is, when possible, to be delivered to the I. C. R. at Montreal.

Transportation of Canadian Trade Commissioners.

Clause 10 provides for the free transportation (including meals and berths) of Canadian Trade Commissioners and their wives and children, and also Canadian Commercial Agents, when travelling upon their official duties, or being transferred from one port to another, upon request of the minister. Calls at foreign ports.

6. The steamers employed in carrying out the provisions of this contract shall not on any voyages either outward or homewards call at any foreign port not specified in this contract.

CANADA AND NEW ZEALAND.

RICHARD A. ALLEY.

Vote 171.—Steam Service between Canada and New Zealand

1909-10 . . . . . $50,000
1910-11 . . . . . $50,000

This service is performed under the terms of a contract entered into with Richard A. Alley, of Vancouver, B.C., dated December 28, 1905, and which expired on the completion of three full years' service. The service was commenced on April 26, 1906, and terminated on April 25, 1909. The principal provisions, aside from those common to all contracts, are as follows:—

Ports of Call—Frequency of Service.

1. 'The contractor being the owner of or having control of the steamship *Africander* of 2,742 tons gross register, and other steamers, will therewith within three months from the date hereof or with steamships of like class, rating, and of not less capacity, approved by the minister, establish a regular service between the port of Vancouver, in the province of British Columbia, and the ports of Auckland, Wellington, Littleton, Dunedin and Bluff, in the colony of New Zealand, such service to commence by one of the said steamers sailing from one of the said ports in New Zealand for Vancouver within three months from the date of the signing of the new Zealand agreement, to be followed by the other two months later, the first one sailing on the return from Vancouver within two months following the date of the first

sailing from New Zealand to be followed by the other two months later and, to so continue sailing from both terminal ports at intervals of two months during the continuance of this contract, with the option on the part of the contractor of calling on all or any trips at Fiji, and with the further option of also calling at the port of Victoria, in British Columbia, on any or all trips run.

Calls at New Zealand Ports.

2. 'It is understood and agreed that in so far as the above named ports in New Zealand are concerned, calls shall be made on each trip at three of them alternating as occasion may require, and with the option on the part of the contractor of calling at other New Zealand ports when found necessary, such further calls, however, not to interfere with the regular running of the service or the sailing from New Zealand on such dates as may be fixed in terms hereinafter provided.

Improvement of Service.

3. 'It is understood and agreed that should the traffic over the route named so increase as to warrant the putting on of larger steamers or of sailing the steamers more frequently than hereinbefore provided, the contractor is to furnish and run such steamers or such more frequent service, always subject to the approval of the minister as to sailing dates and conditions, without, however, any additional subsidy being payable than that hereinafter provided.

Subsidy; £10,000 per annum.

This subsidy is payable at the rate of ten thousand pounds sterling (£10,000) per annum, payable in five instalments of one thousand and six hundred pounds (£1,600) each, on the completion of each of five full round voyages; and the balance of two thousand pounds (£2,000) on the completion of a years' service as herein contracted for; and in like manner and like instalments during each year's continuance of this contract:

Equipment of Steamers.

7. 'The steamers to be employed as herein specified, shall at all times during the continuance of this contract, be fully seaworthy, well officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractor has hereby undertaken to perform; and shall have ample and suitable accommodation for the mails and freight to be carried over the routes specified; and shall, at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

Carriage of Mails.

Under clause 8 of the contract, the contractors are required to carry any mails that may be tendered to them by the Post Office authorities of Canada.

Calls in Australia and Honolulu.

20. 'It is understood and agreed that when other cargo is not available, the steamers employed in the service may call at a port or ports in Australia and at Honolulu to load and discharge cargo; provided always that such additional call or calls shall not be of such a character as to prevent the steamer taking up her sailing date at the appointed time from a terminal port; and it is further understood that any such variation from the usual direct route shall not be made in manner to compete with the subsidized service between Canada and Australia.

Delays not being by Default of Contractor.

22. 'It it understood and agreed that penalties will not be enforced against the contractor if it be shown that the delay in being ready to proceed to sea or to comply with any other terms of this contract has arisen without neglect or default of the contractor, his agents or servants, or by the act of God, the King's enemies or other *force majeure.*

Termination of Contract after Commencement of a Steamer's Voyage.

23. 'It is understood and agreed that in the event of one of the contractor's steamers having started on her voyage and the minister shall decide to terminate this contract for any cause or reason beyond the control of and not being the fault of the contractor, the said steamer shall be deemed to have earned the subsidy for the voyage on which she has sailed.

Subsidy from New Zealand Government.

28.' It is further conditioned, understood and agreed that this contract is subject to the granting by the New Zealand government of a like yearly subsidy to that hereinbefore provided, failing which this agreement is to be null and void from the time such New Zealand subsidy ceases.

Termination of Contract.

29. 'This contract shall terminate on the completion of three full years' service unless sooner terminated under the provisions of sections 18, 19 or 28 hereof.'

Description of Vessels Employed.

No mails shall be conveyed by any such steamer on behalf of any colony or foreign country without the permission of the Postmaster General. The whole postage of any mail conveyed by any steamer shall under all circumstances be at the disposal of the Postmaster General.

4. 'The contractors shall on the first day of October, one thousand nine hundred and seven, and thereafter until the thirtieth day of September, 1912, at least monthly during the first fifteen days of each month, cause one of the steamers properly found in all respects, to leave one of the Canadian ports, and thence to call at the other of the Canadian ports, and thence proceed direct to one of the South African ports, and thence to call at the others of the South African ports; and the contractors further agree, in the event of goods being offered for shipment, to provide such additional vessels having carrying capacity and accommodation and appliances as shall be sufficient to meet the requirements of the trade offered.

Precedence to be given to Canadian Goods and Shippers.

6. 'No preference, priority or advantage whatsoever shall be granted by the contractors as regards the shipment and conveyance of any goods or products, directly or indirectly, against shippers of Canadian goods and products, who shall always have precedence for such Canadian goods and products over all other shippers, provided that such shippers in respect of such Canadian goods and products shall give not less than ten days' notice in writing to the contractors at their office at the port of shipment, specifying the nature and amount of such goods and products before the date advertised for the departure of any steamer of their intention to ship goods and products, who shall at the same time, if required by the contractors, pay a deposit of not less than 10 per cent upon the freight chargeable in respect of the carriage of such goods and products, and subject thereto the contractors shall ship all such goods and products in order of priority according to the time at which the same shall be actually received by the contractors for shipment.

16. 'The contractors shall not in respect of the services receive or accept any subsidy or aid pecuniary or otherwise from any colony or foreign country or any provincial, civic or municipal authority or any person or persons or corporation or corporations, and should any such subsidy or aid be received by the contractors, the Dominion government may deduct the amount thereof from the amount of the next quarterly payment due and owing under this contract, and so from time to time and as often as the contractors receive such subsidy or aid from any colonial or foreign government, provincial, civic or municipal authority or any person or persons or corporation or corporations; but this provision is not to be deemed as a permission or authority for the contractors receiving any such subsidy or aid.

Calls for coaling.

18. 'Subject to the due performance by the contractors of the obligations imposed on them by this contract, they shall be at liberty in sailing from the Canadian ports to the South African ports to call solely for the purpose of coaling at any ports not situate on the continent of America.

Exemptions from calling at Canadian ports.

ST. JOHN, HALIFAX AND LONDON.

FURNESS, WITHY AND COMPANY.

Vote 208.—Steam Service on services between St. John, Halifax and London.

1909-10 .. .. ..

Ventilated Accommodation for Fruit, Dairy Produce, &c.

2. 'The steamers while run under this contract shall be such as are approved by the minister, and no steamer shall be employed until sanctioned by the minister, and all such steamers shall be fitted with suitable accommodation for carrying perishable cargo, such as apples or other fruit, cheese and other provisions without deterioration, with holds and 'tween decks provided with a thorough system of forced ventilation by means of electric or steam-driven fans in such manner as to secure a uniform circulation of fresh air through all space occupied by such perishable cargo. The intakes for fresh air shall be protected by contrivances for that purpose similar to the 'Gibbs' steamship ventilators, so as to be operated in all weathers without permitting water, spray or other dampness being taken into any place where cargo is carried, and such ventilating appliances shall be operated at all times when cargo is on board and throughout the entire space whenever such perishable cargo may be stored during any voyage.

Carriage of Fruit.

3. 'The steamers while so employed shall not carry in any hold, or between any decks more than five tiers of barrels of apples or other fruit except they be stowed in such manner and with such dunnage as will relieve any tier from the weight of more than four other tiers.

4. 'The handling, loading, stowing and unloading of any fruit carried by said vessels shall be subject to and under the supervision of any officer appointed for that purpose should the minister deem it desirable.

Speed of Steamers when Carrying Fruit.

5. 'The steamers when carrying fruit shall be run at an average speed of not less than twelve knots per hour.

Development of Transportation over Government Railway.

6. 'It is hereby agreed by the contractors that as the aid herein expressed and provided for by the Canadian government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian channels, the company accepts the aid on these conditions and agrees that all freight booked or carried by the said steamships from a port in the United Kingdom and during the time these make Halifax their terminal port, shall, when not otherwise routed by shippers or consignees, be delivered to the Intercolonial railway at Halifax for shipment to final destination in Canada provided that the rates demanded by the Intercolonial railway shall not be in excess of the rates charged by any other railway company from said ports to final destination in Canada.

(*a*) Contractors are to hand over to the Intercolonial railway at Halifax passengers for points in the Maritime Provinces or the province of Quebec, providing the routing of such passengers is controlled by the contractors and that they are not otherwise routed. It is further agreed that the contractors through their agents in Canada shall see that they have all such freight for export as may be secured by them for a port in the United Kingdom at which the subsidized line may call delivered to the Intercolonial railway at Montreal.

Rebates.

7. 'In additions to the stipulations contained in clause 10 regarding freight rates, the rate per barrel on apples from Halifax to London shall be substantially the same

to all persons under the same conditions, and no rebates shall be given directly or indirectly by the contractors or agents thereof to any Canadian exporter in preference to another.

Subsidy: $25,000 per Season.

8. The subsidy is twenty-five thousand dollars ($25,000), payable as follows:—

The sum of twelve thousand five hundred dollars ($12,500) on the first day of October next after the date of these presents; and the balance of twelve thousand five hundred dollars ($12,500) on the completion of the service on the first day of April, 1910.

VICTORIA AND SAN FRANCISCO.

PACIFIC COAST STEAMSHIP COMPANY.

Vote 218.—Steam service between Victoria and San Francisco.

1909-10 . . . . . $3,000
1910-11 . . . . . $3,000

This service is in one sense run under the terms of the Act of Confederation, which provided that a steam service should be maintained between Victoria and San Francisco, which, at that time, was the only mode of travel or of transportation of mails; but for some years past the necessity for the service as a mail route has ceased to exist, as letter mails are invariably carried by rail, and only small quantities of newspapers and similar matters are carried by the steamers.

The service at present is run by the Pacific Coast Steamship Company of San Francisco, represented by Messrs. R. P. Rithet & Co., Ltd., Victoria, B.C., under terms of a contract bearing date May 10, 1906, and which expires March 31, 1910. The principal provisions, aside from those common to all contracts, are as follows :—

Period of Contract.

1. Vote 220.—Steam service between Victoria and West Coast Vancouver Island.

1909-10 . . . . . $5,000
1910-11 . . . . . $5,000

This service is performed by the Canadian Pacific Railway Company under terms of a contract bearing date July 29, 1908. This contract expired March 31, 1909, but was extended by Articles of Agreement dated May 1, 1909 for one year more, until March 31, 1910.

The principal provisions, aside from those common to all contracts are as follows:—

1. The contractors having prior to the first day of April last past placed steamers necessary to properly perform the services hereinafter specified, and of a class as

regards size, speed and equipment satisfactory to the minister; and having from that date, and will hereafter during the continuance of this agreement, run the same on and over the routes, and in the manner as follows, viz.:—

Route A.—Between Victoria and Vancouver, in the province of British Columbia, and Skagway, Alaska.

Route B.—Between Victoria and Vancouver aforesaid, and Naas Harbour and Skidegate, also in the province of British Columbia, calling on all voyages at intermediate ports or places as herinafter enumerated.

Route C.—Between Victoria aforesaid, and Ahousset, or Mosquito Harbour, Quatsino and Cape Scott, also in the province of British Columbia, calling on all voyages at intermediate ports or places as hereinafter enumerated.

Frequency of Service.—Route A.

2. *Over route A.*—There shall be run four complete round trips during each of the months of June, July, August, September and October, in each year covered by this agreement; and not less than three complete round trips each month during the months of March, April and May; and two complete round trips during each of the months of November, December, January and February in each year covered by this agreement. The days of sailing from Victoria and Vancouver shall be such as are approved by the minister, and in event of change such change shall be duly advertised at least two weeks in advance.

Frequency of Service and Ports of Call.—Route B.

3. *Over route B.*—There shall be run two complete round trips each month during the continuance of this agreement, calling on all trips both ways, weather permitting, at Sointula, Wadhams, Hartley Bay, Claxton, Oceanic, Alert Bay, River Inlet, Bella Bella, Metlakatla, Arrandale, Namu, Lowe Inlet, Balmoral, Inverness, Kincolith, Port Hardy, China Hat, Kitkatla, North Pacific Cannery, Dominion Cannery, and Quathiaski Cove to Naas Harbour, and at such other ports or places as the minister may require or direct; calling once each month at Skidegate and Bella Coola alternately; also calling on all trips one way only at Aberdeen; also calling at Port Simpson and Port Essington when required for passengers or freight. It is understood that as Naas Harbour is a tidal harbour and the calling there would at times involve considerable delay, under such circumstances calls may be made at Port Nelson or Arrandale instead.

Frequency of Service and Ports of Call.—Route C.

4. *Over route C.*—There shall be run during the continuance of this agreement in the months of April to September inclusive in each year, four complete round trips as follows: Two from Victoria to Ahousset or Mosquito Harbour only; one to Ahousset or Mosquito Harbour and Quatsino; and one to Ahousset or Mosquito Harbour, Quatsino and Cape Scott; and in the remaining months in each year three complete round trips from Victoria to Ahousset or Mosquito Harbour and return, one of which to be continued to Cape Scott, calling both ways on all trips run over this route, weather permitting, at Port Renfrew, New Alberni, Alberni, Ucluelet, and Clayoquot, and on one trip in each month at Hesquiat, Friendly Cove, Nootka Sound, Nuchatlitz, Kyuquot, Winter Harbour, Fregon, also when necessary at Coal Harbour and Yreka Mine; and on all trips at such other intermediate ports or places as the minister may require or direct. On outward trips only, steamers employed in carrying out the provisions of this contract, especially with reference to Route A. will have the privilege of calling at American ports in Alaska, anything in section 13 to the contrary notwithstanding.

Termination of Contract.

5. This agreement shall remain in force and have effect until the thirty-first day of March, 1909, unless sooner terminated by mutual consent or under the provisions of section 19 hereof, or unless extended for one year from such date at the option of the minister.

Carriage of Mails.

Clause 7 of the contract provides for the carriage of mails.

Subsidy: $17,500 per Annum.

Subsidy is payable at the rate of seventeen thousand and five hundred dollars ($17,500) per annum, that is to say, for the due performance of the services over the routes A and B as above enumerated in sections 1, 2 and 3, at the rate of twelve thousand five hundred dollars ($12,500) per annum; and over the route C as above, at the rate of five thousand dollars ($5,000) per annum, payable in quarterly instalments on the first day of each of the months of October, January, April and July in each year covered by this agreement, and three thousand one hundred and twenty-five dollars ($3,125) for services A and B, and of one thousand two hundred and fifty dollars ($1,250) for service C;

An agreement, supplementary to the Articles of Agreement dated May 1, 1909, provides that the ports of call on the services A, B, and C, as under the old contract be and are hereby rescinded and the following substituted in lieu thereof, viz:—

'Subject to the provisions of this agreement the company shall and will during the continuance of this agreement at their own costs and charges in all respects convey or cause to be conveyed once in every three weeks during the summer season, and once in every four weeks during the winter season in each direction all mails which the postmaster general or any of his deputies, officers, servants or agents shall from time to time require to be conveyed in either direction between Liverpool in England and the port of Hong Kong in China and between the several ports and places en route hereinafter specified. Such conveyance shall be effected by way of Halifax, St. John, Quebec or Rimouski (as hereinafter provided) in the Dominion of Canada and the port of Vancouver in the same Dominion, and shall be effected between Halifax, St. John, Quebec or Rimouski (as the case may be) and the said port of Vancouver by means of railway trains and between Liverpool and Halifax, St. John, Quebec or Rimouski (as the case may be) and between the said port of Vancouver and the said port of Hong Kong by means of mail ships. All such trains and mail ships respectively shall be provided by the company and such conveyance shall be conducted throughout as one continuous and complete service, and the company shall be responsible for the safe conveyance and delivery of the mails by means of such trains and mail ships.

Summer and Winter Ports in Canada.

3. 'Subject to the provisions of this agreement all mails to be conveyed by the company in pursuance of the agreement by means of railway trains shall be conveyed over the railways of the company during the summer season from and to Quebec or Rimouski direct to and from the mail ships to be despatched from and to arrive at the said port of Vancouver; and during the winter season from and to Halifax or St. John direct to and from the said mail ships at the said port of Vancouver.

Manner of Conveyance of Mails.

5. 'Subject to the provisions of this agreement, the conveyance of the mails between Liverpool and Hong-Kong shall be effected by the company in the following manner:—

(1) 'On the journey from Liverpool to Hong-Kong, one of the mail ships shall put to sea from Liverpool at the time appointed by the Postmaster General, and shall proceed on her voyage to Halifax, St. John, Quebec or Rimouski (as the case may be). At Halifax, St. John, Quebec or Rimouski (as the case may be) the company shall transfer the mails to one of the trains to be provided by the company. The said train shall then forthwith start and shall proceed to the said port of Vancouver, stopping at such places as the company shall appoint. At the said port of Vancouver the company shall transfer the mails to one of the mail ships, which shall then forthwith put to sea, and proceed on her voyage to Hong-Kong, touching or calling at the several ports or places hereinafter mentioned.

(2) 'On the journey from Hong-Kong to Liverpool: The service above described shall be reversed and the mails conveyed in manner aforesaid (*mutatis mutandis*) in the contrary direction.

(3) 'On both journeys: The company shall at each of the ports hereinafter specified at which the mail ships shall call or stop or from which they shall start, and at each of the places at which trains shall stop or from which they shall start, accept such mails as shall under the provisions hereof be there tendered to them for conveyance, and deliver thereat such mails as shall under the provisions hereof have been entrusted to them for such delivery.

Ports of Call in China and Japan.

6. On the voyages in both directions between Vancouver and Hong-Kong the mail ships shall call at Yokohama and Shanghai, and may also (at the option of the company) call at the ports of Victoria, Nagasaki, Shimidzu and Hiogo (Kobi), and at Amoy or other China or Japan ports.

Contract Time for the Conveyance of Mails.

7. 'All mails to be conveyed under the provisions of this agreement by such trains and mail ships respectively as aforesaid from Liverpool to the port of Hong-Kong, or from Hong-Kong to Liverpool, shall be so conveyed by the company during the continuance of this agreement within the complete and entire periods next hereinafter mentioned (that is to say) when the conveyance shall be by way of Quebec or Rimouski within a total period of 818 hours, and when the conveyance shall be by way of Halifax or St. John within a total period of 853 hours, which said periods respectively shall be calculated in the manner hereinafter mentioned or specified, and shall respectively include all stoppages of the mail ships and trains.

Conveyance of Mails between United Kingdom and Canada.

11. 'In addition to the services above described the company shall, without further payment than the subsidy hereinafter mentioned, convey by any of their steamships or other vessels plying between any port or ports in the United Kingdom and any port or ports in the Dominion of Canada any mails which the Postmaster General may tender for conveyance by such vessels between any ports or places (including ports of departure and destination) on the routes thereof respectively.

Subsidy: £45,000 per annum.

39. 'In consideration of the covenants and agreements herein contained and on the part of the company to be observed and performed, and of the due and faithful performance by the company of all the services under this agreement, there shall be payable to the company during the continuance of this agreement (out of such aids or supplies as may from time to time be appropriated by parliament for that purpose) a yearly subsidy or sum after the rate of £45,000 per annum, or (in the event of any such default or failure as hereinafter mentioned) so much of the said subsidy or sum as shall remain payable in respect of any year after making such deductions therefrom (if any) as hereinafter in that behalf mentioned in respect of any such default or failure.

Deductions from Subsidy.

40. 'If at any time the company fail to provide a mail ship at the port of Liverpool or Hong-Kong, ready to put to sea, on and at the appointed day and hour, or if such mail ship fail to start or put to sea on and at the appointed day and hour or so soon thereafter (regard being had to practical considerations) as the anchor of the mail ship can be weighed or the ship loosed from her moorings, then and so often as any such default shall happen there shall be deducted from the subsidy which would in the absence of any such default be payable to the company for the current year the sum of £500, and also the further sum of £100 for every successive 24 hours which shall elapse until such mail ship actually starts or proceeds to sea on the appointed voyage in pursuance of this agreement. Provided always that the total amount of the sums deducted as last aforesaid shall not in the aggregate exceed by a sum greater than the sum of £500, that part of the said subsidy of £45,000 for the current year which shall be applicable to the whole journey, reckoned from the port of departure to the port of arrival, in respect of which default shall have been made.

41. If at any time or times the mails shall not be conveyed from Liverpool to Hong-Kong or from Hong-Kong to Liverpool as aforesaid within the respective periods of transit hereinbefore stipulated in that behalf, then and so often as the same shall happen there shall be deducted from the subsidy, which but for this provision would have been payable to the company for the current year a sum of £100 for every complete period of 12 hours by which the time actually occupied in the conveyance of such mails shall have exceeded the period of transit hereinbefore stipulated in that behalf respectively. Provided always, that the total amount of the sums deducted in respect of any such default or failure as hereinbefore mentioned in the delivery of mails shall not exceed that part of the said subsidy of £45,000 for the current year, which shall be applicable to the journey in respect of which such default or failure occurs.

Provided, also that no such deductions as in this clause mentioned shall be made in respect of any such default or failure as aforesaid if the company shall prove to the satisfaction of the Postmaster General that such default or failure arose from any cause or causes altogether beyond the control of the company.

Manner and Time of Subsidy Payments.

43. (1) 'Subject to the provisions herein contained, the said subsidy shall be paid by equal quarterly payments on or as soon as conveniently may be after the days hereinafter in this article mentioned.

(2). 'All accounts in relation to the said subsidy, and any deduction therefrom or additions thereto as hereinbefore provided shall be made out and settled quarterly up to and on or as soon as conveniently may be after the 31st day of March, the 30th day of June, the 30th day of September and the 31st day of December in each

year, and the amount or balance (if any) which shall be justly due to the company on each such quarterly account shall be paid by the Postmaster General out of such aids or supplies as aforesaid upon the settlement of such account; and for the purposes of such accounts, and subject as aforesaid the said yearly subsidy of £45,000 or any increased or decreased subsidy which may become payable under or by virtue of any of the provisions herein contained shall be deemed to accrue from day to day subject to the liability of the same to be altered by such additions or deductions as aforesaid.

Termination of Agreement.

44. 'This agreement shall be deemed to have commenced on the 7th day of April, 1908, and shall continue in force until the 6th day of April, 1911, and shall then absolutely determine.

Canadian Proportion of Subsidy.

'Of the above-mentioned subsidy of £45,000 per annum. Canada contributes £25,000, and Great Britain £20,000.

Service—Speed.

1. The contractors owning and controlling in their capacity aforesaid, the steamships *Laurentian, Pomeranian, Sardinian* or *Buenos Ayrean,* will establish upon the opening of navigation in the year of the date of these presents (and with the assistance of such other steamships as may be approved by the minister) and from that time maintain for a period of one year a regular direct steamship service between a port or ports in the Dominion of Canada and a port or ports in France, with the option upon the part of the contractors of extending each eastbound voyage to a port or ports in Great Britain as hereinafter defined with not less than three steamships, each of which shall not be less than 3,000 tons gross register, with a carrying capacity of 4,500 tons available for agricultural products, merchandise and all other kinds of freight, each of which shall also be fitted with such amount of cold storage accommodation and under such regulations as the minister may require, and thereafter during the continuance of this contract to be at all times subject to the approval of the minister. The speed of the said steamers at sea when loaded and while so employed shall be during the term of this contract a minimum of not less than ten knots per hour, such steamers to be fully equipped in the most approved and modern style.

Ports of Call.

2. It is understood and agreed that during the season of open navigation on the River St. Lawrence covered by this contract, the terminal ports in Canada shall be Montreal or Quebec, and during the season of closed navigation on the St. Lawrence such terminal ports shall be Halifax or St. John, at the contractors' option, subject to the approval of the minister; and it is understood and agreed that the ports of call in France upon each eastbound and westbound trip shall be Cherbourg or Havre, or both, at the option of the contractors, and each eastbound trip to be extended at the option of the contractors to a port or ports in Great Britain; provided, however, that in any event the first port of call after leaving Canada shall be a port in France and that the last port of departure for Canada shall also be a port in France.

Frequency of Service.

3. 'It is understood and agree that the number of round voyages from France to Canada and return as herein stipulated during the continuance of this contract shall not be less than eighteen yearly; that is to say, that during the months of May to November, inclusive, in each year there shall be run not less than two full round voyages each month and during the remaining months of December to April, inclusive, the remaining voyages shall be performed; such service to be regular and uninterrupted with sailings on such fixed dates as may be approved of by the minister, and such dates shall be by the contractors regularly advertised at least two weeks in advance of every such sailing. It is further understood and agreed that at the option of the contractors the number of round voyages from France to Canada and return as herein stipulated may be increased to a maximum of 24 per annum, such additional voyages, if run, to be run regularly with sailings on such fixed dates as may be approved by the minister, and such dates shall be by the contractors regularly advertised as hereinbefore provided.

Subsidy : At the rate of $100,000 per Annum for 18 voyages, but not to exceed $133,333.33 per Annum.

4. The subsidy is at the rate of one hundred thousand dollars ($100,000) per annum, based upon and for the service of eighteen full round voyages, and so in proportion for the increased service also herein provided for; provided, however, that the total amount of subsidy to be claimed or paid for the one year's service shall not exceed the sum of one hundred and thirty-three thousand three hundred and thirty-three dollars and thirty-three cents ($133,333.33), such subsidy being payable in quarterly instalments on the first day of each of the months of July, October, January and April, occurring during the continuance of this contract; provided also that it is the true intent and meaning of these presents that the contractors shall have no claim to payment of any instalment of subsidy or any part thereof unless up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and unless all the provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to necessitate their being docked for repairs, the failure to perform the terms of this contract during such accident and the time reasonably occupied in such repairs, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for such repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Freight Rates.

6. 'It is hereby agreed that the rates charged for freights to or from any Canadian port included in this contract shall not exceed the rates charged by regular passenger steamers to or from New York, Boston and Portland, to or from the port of Havre, and the minister may at any time, if he deem it advisable, and after sufficient notice to the contractors, revise the rates to be charged on all classes of goods, such revision to be in all cases consistent with a fair and sufficient remuneration for the services performed by such steamers, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all freights that may be offered or that can be reasonably

procured at rates which shall not be in excess of the aforesaid rates, and in no case shall any discrimination be made as regards rates or otherwise, directly or indirectly against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers.

Freight booked to Halifax or St. John to be delivered to Intercolonial Railway.

7. 'It is hereby agreed by the contractors that, as the aid herein expressed and provided for by the government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian channels, the company accepts the aid on these conditions, and agrees that all freight booked or carried by the said steamships from a port in France, and during the time these ships make Halifax or St. John their terminal port, shall, when not otherwise routed by shippers or consignees, be delivered to the Intercolonial Railway at Hailfax or St. John for shipment to final destination in Canada, providing that the rates demanded by the Intercolonial Railway shall not be in excess of the rates charged by any other railway company from said ports to final destination in Canada.

Passengers for Quebec and Maritime Provinces to be delivered to Intercolonial Railway at Halifax—Freight for France to be carried by Intercolonial Railway.

Contractors are to hand over to the Intercolonial Railway at Halifax passengers for points in the maritime provinces or the province of Quebec, providing the routing of such passengers is controlled by the contractors, and that they are not otherwise routed. It is further agreed that the contractors, through their agents in Canada shall use all and every effort to have all such freight for export as may be secured by them for a port in France at which the subsidized line may call, delivered to the Intercolonial Railway at Montreal.

Carriage of Mails.

Clause 9 of the contract provides for the carriage of mails.

Calls at Foreign Ports.

15. 'The steamers employed in carrying out the provisions of this contract shall not on any voyage, either outwards or homewards, call at any foreign port not specified in this contract.

SOME CLAUSES COMMON TO ALL CONTRACTS.

NOTE.—Some of the principal sections common to all contracts, and as such hereinbefore frequently referred to, read as follows:—

Proof of Performance of Service to be Furnished.

The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnish to the minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition, precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit and proper, taking into consideration all the circumstances con-

nected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

Equipment of Steamers.

'The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully seaworthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freights to be carried over the routes specified; and shall, at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

Accommodation for Mails.

'The said steamers shall be provided with sufficient and convenient accommodation and protection for all such mails, to the satisfaction of the Honourable the Postmaster General of Canada for the time being, and the contractors shall further take all reasonable and necessary precautions for the protection of such mails while upon the said steamers or while in the contractors' charge or custody, from loss, damage or injury in any way, and the contractors shall be responsible for any loss or damage thereto caused by negligence or want of proper care or accommodation on the part of the contractors, their agents or servants, or on the part of the officers, employees or crew on board the said steamers, and this without regard to any question as to the legal liability of the Postmaster General to the owners of the articles of mail matter contained in such mails for damage or loss sustained in transit.

Definition of term 'Mails.'

'The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, post cards, newspapers, parcels, books, or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service, or which shall ordinarily be sent by or to or from the post offices.

No Letters except H.M. Mails to be Carried.

'The contractors shall not, nor shall any of their agents or servants, or officers or crew of the said steamers receive or permit to be received on board of the said steamers any letters for conveyance other than those contained in His Majesty's mails, or which are or may be privileged by law, nor the mails of any other country, except such as are specified by the Postmaster General of Canada, for the time being.

Government Officials to be Carried Free of Charge.

The Honourable the Postmaster General of Canada, or the Honourable the Minister of Trade and Commerce for the time being, or any inspector or officer of the Post Office Department or of the Department of Trade and Commerce, who may in the execution of his duty travel in the said steamers, shall be carried free of charge.

Proper Accounts to be Kept.

The contractors shall keep full and proper accounts of and in connection with the working of this service, and shall keep such accounts separate and distinct from any other accounts of or connected with other branches of their business; and in any contingency which, in the opinion of the minister, may render such a course necessary, the contractors shall allow any officer or officers named by the minister free access to such accounts and all books, papers and documents connected therewith.

Substitutes for Disabled Steamers.

'It is understood that if the said steamer shall be by peril of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing the voyages herein agreed to be performed according to the true intent and meaning of these presents, the contractors may in such case as soon as reasonably may be, having regard to the circumstances, replace the said steamer by another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister in case the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible under all circumstances.

Freight and Passenger Tariffs—Proof of Performance of Service to be Furnished.

'The contractors shall carry on each steamer running under this contract, according to its capacity, on all voyages, all the freight and passengers which may be reasonably offered or obtained, and at tariff rates, both as to passengers and freight, which may be from time to time approved by the minister; and the contractors shall furnish to the minister such documents, information and evidence as may be required by the minister, to show the volume, extent and value of the trade carried on by the said steamer, and such customs certificates, documents and evidence as may be necessary or as may be required by the minister to prove the performance of the service herein contracted for, and to enable the minister to judge as to whether this contract is being carefully and faithfully carried out and performed and the furnishing of such certificates, documents, information and evidence, as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for or any portion thereof.

Deductions from Subsidy—Time-tables to be Furnished—Docking Disabled Steamers.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within forty-eight hours of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of

the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should be for any reason deem it advisable to do so; It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Carriage of Mails.

The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf or under the direction of the postal authorities of Canada, or those at the terminal ports or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

Freight and Passenger Rates to be Approved by the Minister.

The contractors shall at least three weeks prior to the first sailing under this contract, furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly, against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on east-bound trips, sailing from or , as hereinbefore provided, on through bills of lading to from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to via any United States route or port; and on west-bound trips the rates from to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of or and aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided,

however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

Calls at foreign ports.

'The steamer employed in carrying out the provisions of this contract shall not on any of its trips call at any foreign port not specified in this contract.

Carriage of nitro-glycerine or dangerous articles.

'The contractors shall not convey or permit to be conveyed in any steamer while employed in this service any nitro-glycerine or any other article which in the opinion of the minister shall be considered dangerous.

Subsidy subject to vote of Canadian parliament.

'It is conditioned, declared and agreed that the payment of subsidy, as hereinbefofe stipulated, is subject to the amount specified being provided for the purpose by a vote of the parliament of Canada, and that if no amount is voted for the purpose, or if any amount voted has become exhausted in payment thereof, and no further sum is voted for the purpose, this contract or agreement shall terminate and become void and of no effect, and the party of the first part shall not in consequence be held liable to damage.

Minister's right to terminate contract.

'It is declared to be the true intent and meaning of these presents, that the minister shall have the right at any time during the continuance of this contract, upon 30 days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

Assignment of contract.

'This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the minister to such assignment having been first obtained.

Canadian members of parliament not admitted to share in contract.

'It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Changes in contract.

'The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

Minister to be final judge as to full carrying out of contract.

"The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

COINAGE, WEIGHTS AND MEASURES

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the 'Imperial Gallon,' contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore 75 × ·801=60·075 which × ·900=54·0675, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard;* thus for instance on a certain day the London quotation reads 'fine silver per ounce standard 32 d.,' while on the same day it is quoted in New York '69½ cents per ounce fine;' as 32 d. is equal to a fraction over 64⅞ cents, there would appear a difference of about 4⅝ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard" (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about ⅝ of one cent per ounce, the London price being that much in excess of the New York.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

* Old weights and measures sometimes used. ‡ The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1·113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579·72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3·61 grains from the weight usual (say 1⅛ oz. per tael) in dealing with the weights other than those of gold and silver. § Usually reckoned same as Chinese Picul of 133⅓ lbs. ϕ This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun=1·4916 in. 1 shaku = 14·916 in. and 1 jo = 149·6 in.

The trade with these ports accordingly disappears from the statistics from that date.

4. If, after a reasonable time, a commercial convention such as is contemplated by the next preceding clause has not been entered into, then either of the principals herein represented may, if it is deemed desirable, terminate or cancel the respective concessions granted in pursuance hereof on giving to the other two months' notice of intention so to terminate or cancel.

TRADE RELATIONS WITH GERMANY.

(10g)

CERTIFIED copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 14th February, 1910.

On a memorandum, dated 12th February, 1910, from the Minister of Finance, reporting the result of certain informal negotiations which have from time to time taken place respecting the tariff relations between Germany and Canada:

The Minister states that an unfortunate difference between the two countries arose in the year 1898 and has continued until the present time. The moment seems to have arrived when, although a full settlement of tariff questions may not be reached, an understanding may be come to which will to a considerable extent remove causes of friction and pave the way for a more comprehensive arrangement in the future:

That prior to the time at which the difference arose, the tariff relations between the two countries were subject to the conditions of a treaty between Her Majesty the Queen and the German Zollverein of date the thirtieth day of May, 1865:

This treaty contained no specific reference to Canada or to the British North America Provinces as then constituted. But it applied to the whole Empire. The provisions of the treaty were materially different from those which are usually found in British treaties with foreign countries. Many of the old British treaties, not specifically relating to Canada but applicable to the Empire at large, contain what are known as most favoured nation clauses. The effect of such clauses is that the British Government guarantees to the contracting nation the most favourable commercial advantages that may be granted to any other foreign country. The provisions of the treaty with Germany were much broader. The treaty provided that no other or higher duties should be levied in the British colonies on the products of Germany than on the products of the United Kingdom. This treaty and another of similar character were long regarded as objectionable from a colonial point of view as being an obstacle to freedom of commercial relations between the mother country and the outlying portions of the Empire. Representations from the colonies against the continuance of these treaties were made on several occasions. After the granting of a preferential tariff to Great Britain by Canada in 1897 the British Government denounced these treaties and they were terminated on the first day of August, 1898. After that date German goods were entitled to admission into Canada under the General Tariff. Germany resented this state of affairs and penalized Canada by subjecting Canadian products to the higher duties of the German tariff instead of the Conventional Tariff duties which had previously applied. Steps were taken by the Canadian Government to remonstrate against what was deemed to be an injustice to Canada. It was pointed out that the tariff relations between the United Kingdom and the colonies were matters of domestic concern with which no foreign Government could reasonably interfere; that Germany should not claim the same privileges as were granted by the Dominion to the mother land; and that Canada was granting to Germany the same terms as were granted to other foreign countries. Germany, however, refused to accept this reasoning and continued to impose the penalizing duties on Canadian products. After protracted and unsuccessful efforts to induce

the German authorities to withdraw their demand for the same treatment as was accorded Great Britain, it was deemed necessary to apply to the products of Germany the surtax authorized by Section 7 of 'The. Customs Tariff, 1897,' and accordingly regulations were made by an Order in Council of date the 28th day of November, 1903. subjecting articles, the produce or manufacture of Germany, to a surtax of one-third over and above the duties specified in the General Tariff. From that date up to the present time the products of Germany imported into Canada have been subject to the duties of the General Tariff and of such surtax, and Canadian products imported into Germany have not received the benefits in any case of the Conventional Tariff rates.

Representations have been made to the Minister from time to time by the Imperial German Consuls at Montreal as to the desirability of reaching a better understanding between the two countries. In these informal negotiations the German representatives have abandoned the contention which was the chief cause of difference between the two countries, namely, that the products of Germany should receive in Canada the same treatment as the products of the United Kingdom. In the meantime the commercial relations of Canada with foreign countries have assumed a new phase owing to the making of the Franco-Canadian commercial convention which has now gone into operation. Germany naturally desires to be admitted to the benefits of this convention on the same terms as France. The moment appears to be an unfavourable one for entering upon negotiations for a comprehensive commercial treaty with Germany. It has, however, been deemed expedient to conduct negotiations with a view to a partial arrangement which would bring about a better understanding between the two countries. The Minister, being of the opinion that it is in the interests of both countries that such an arrangement be made, has endeavoured to come to an agreement whereby the surtax of which Germany complains might be suspended, thus leaving German products to be admitted under the terms of the General Tariff, and Canada receive in return for this concession the benefits of the German Conventional Tariff upon a list of products to be specified. After considerable negotiation between the Imperial German Consul and the Minister, a list of Canadian products to which the benefits of the German Conventional Tariff may be applied has been agreed upon.

The Minister submits a draft of a proposed agreement to be entered into between the Imperial German Consul, on behalf of the German Government, and the Minister of Finance on behalf of the Government of Canada, and recommends that he be authorized to sign such agreement.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

DEAR DR. LANG,—In the somewhat informal negotiations which we have had respecting the tariff arrangements between Germany and Canada, having in view the suspension of the surtax by Canada and the granting of the conventional tariff by Germany on the specified list of Canadian products, such an arrangement would be carried out on the part of Canada by an order of His Excellency the Governor General in Council, acting under the provisions of an Act of the Parliament of Canada entitled The Customs Tariff, 1907. Before signing the proposed agreement I shall obtain the consent of His Excellency the Governor General in Council for such purpose.

It is important that I should know that you have a similar authority from your Government to make the arrangement on the part of Germany. I shall be glad to have your assurance that you are fully authorized for this purpose and that, on your signing the memorandum of agreement which you contemplate, immediate action will be taken by the German Government for putting it into effect.

TARIFF RELATIONS BETWEEN THE UNITED STATES AND THE DOMINION OF CANADA. CORRESPONDENCE RESPECTING NEGOTIATIONS, 1910.

From His Majesty's Ambassador at Washington to the Governor General.

British Embassy, Washington, February 18, 1910.

His Excellency,
The Right Honourable Earl Grey, G.C.M.G., &c., &c., &c.,
The Governor General.

My Lord.—Yesterday the Assistant Secretary of State sent for Mr. Mitchell Innes, and on his arrival, said that he wished to speak about the tariff relations between the United States and Canada. As the matter was of importance it was thought better that the substance of the conversation should be forwarded to Your Excellency's Government in the form of a memorandum to be drawn up by the State Department, and this memorandum I now have the honour to forward with the request that I should be informed as early as possible of the answer which should be returned.

The Assistant Secretary of State was throughout the conversation at pains to emphasize the friendliness of the feelings towards Canada with which the American Government and people were animated.

A. MITCHELL INNES.

Memorandum.

In view of the very friendly attitude of the Government and people of the United States towards the neighbouring Dominion of Canada, and in the interest of Canada at least quite as much as in that of the United States, the President would feel keen regret if, merely for the lack of opportunity for sympathetic and frank negotiation, the maximum tariff of the United States should automatically become operative upon Canadian products imported into the United States after March 31.

The application of the maximum tariff to the products of a given country can be avoided only if the Secretary of State be placed in possession of all those facts necessary to enable him to recommend to the President that, there being no undue discrimination, a proclamation to extend the minimum tariff may properly be issued. The authorities of the country concerned are naturally those pre-eminently able to supply the required facts. In the case of all countries this has been done through their representatives at Washington, who have carried on negotiations with the Department of State. It will thus be seen by the force both of logic and of precedent that negotiations affecting American-Canadian tariff relations would occur at Washington either through the British Embassy or otherwise.

The Secretary of State will be glad if the British Embassy will be kind enough to take the necessary steps to assure its Government as well as the Dominion authorities of the disposition of the Government of the United States in the premises, in order that he may be informed as speedily as possible as to the manner in which is to be undertaken the negotiation of American-Canadian tariff matters.

The Secretary of State has caused the Consul-General at Ottawa to report at the Department in order to supply such information as he can. The Secretary of State is further considering the question of sending to Ottawa two experts likewise to seek information.

It will be gratifying to the Government of the United States if in conveying the foregoing to the proper quarters the British Embassy will give assurances of the desire of the Government of the United States so far as possible to meet the wishes of the Dominion of Canada and the British Government in all matters of mode of procedure in seeking to bring about a negotiation of undeniable importance to all concerned.

Department of State,

Referring to my despatch, No. 25, United States Tariff, I have been requested by the Secretary of State of the United States to inform you by telegraph of his urgent desire to begin at the earliest possible moment negotiations with Canada.

BRYCE.

MEMORANDUM.

A confidential communication from Mr. Fielding to His Excellency the Governor General, under date the 22nd of February, in relation to the tariff question, included an intimation that the Canadian Government were ready to discuss the situation with any authorized representative of the United States Government. It was intimated by Mr. Fielding that the meeting should not take place at Washington, that Ottawa was preferable, but that if an intermediate point would be more desirable this could probably be arranged. This was forwarded by His Excellency to Mr. Bryce and was the basis of a communication from him to the State Department, on the 26th February.

From His Majesty's Ambassador at Washington to the Secretary of State of the United States

WASHINGTON, February 26, 1910.

PHILANDER C. KNOX,
Secretary of State.

DEAR MR. KNOX.—I have this moment received from Canada a communication which, although it is of an informal nature, enables me to inform you in reply to the communications which your department addressed to this Embassy and which were duly reported to Canada that although, as you are aware, the Dominion Goverment have not themselves any proposals to make they are quite ready to respond to any intimation from your government that the latter desire an opportunity of discussing

with them the present tariff situation. Should you think it well to send an authorized representative or representatives to Ottawa for the purposes of an informal confidential conference, he or they will be received with pleasure there. Should it be thought better that such a confidential conversation should be arranged for in some intermediate place less exposed to publicity than is either Ottawa or Washington at the present moment, the Dominion Government would assent to such an arrangement. Meantime, if you would like to convey through this Embassy to Canada any statement of your views for the consideration of the Dominion Government, I need hardly say that I will forward such to Ottawa forthwith. And should you think it well that we should ourselves have some conversation either as to the best way of arranging for a meeting of experts or as to the questions themselves which you wish to have discussed, I am, of course, entirely at your disposal, either to-day or any later day which may suit your convenience. It is hardly necessary to add that the Dominion Government entirely reciprocate the expressions which have proceeded from your department as to the friendly attitude of the United States Government, being themselves animated by like sentiments.

BRITISH EMBASSY,

WASHINGTON, March 1, 1910.

My Lord,—I have the honour to transmit herewith copy of a note dated yesterday from the United States Government in regard to the Commission which it is proposed to send to Ottawa to discuss tariff relations between the Dominion of Canada and the United States. It is in reply to the letter which I had addressed on Saturday last, February 26th, to the United States Government upon the receipt on that day of Your Excellency's unofficial letter enclosing a letter from the Honourable Mr. Fielding.

The substance of this note has already been telegraphed to Your Excellency and a copy of my letter of the 26th ultimo above referred to was sent unofficially to Your Excellency yesterday.

JAMES BRYCE.

From the United States Secretary of State to His Majesty's Ambassador at Washington.

DEPARTMENT OF STATE, WASHINGTON, February 28, 1910.

EXCELLENCY,—On the 18th instant the Assistant Secretary of State very frankly laid before the Councillor of His Britannic Majesty's Embassy the attitude of the Government of the United States towards the pending matter of American-Canadian tariff relations and more particularly certain questions necessarily preliminary to negotiations by or on the part of Canada with this Government.

It was unhesitatingly assumed that the British Government and the authorities of the Dominion of Canada would desire, equally with the Government of the United States, that such negotiations should take place, and it was sought to ascertain, first, whether the Canadian authorities would discuss this subject directly or through the British Government, and secondly, if directly, whether it was preferred that the negotiations should take place, as is usual, at Washington, or whether they should take place at Ottawa. In making these enquiries, I sought to make evident the desire of this Government to consult, so far as possible, the preferences of Canada, even if this should involve a departure from the established mode of procedure in the many tariff negotiations now pending.

At the request of Mr. Innes, who kindly undertook to obtain with the least possible delay, the answer to these questions, the same ideas were embodied in the memorandum which I had the honour on the 18th instant to send you.

I hasten to thank you for the intimations, which in the absence of a formal and definite reply, you are so good as to embody in your note of this date, wherein I note with pleasure the assurances that the Government of the Dominion of Canada reciprocates the attitude of the United States and is animated by like cordial sentiments. This confirmation of what I had naturally assumed increases my hope that a frank exchange of views between the respective authorities may lead to satisfactory results. The simple desideratum would seem to be a frank and practical discussion which shall determine whether or not I may be placed in position to advise the President upon the facts that Canada is entitled to the benefits of the minimum tariff. As further evidence of the sincere desire of the United States to find a way, if possible, to accord to Canada the minimum rates—a matter in which, as had been made very evident, this Government has no desire to be captious as to modes of procedure—I shall avail of the courtesy of Your Excellency to inform the Canadian Government that Professor Henry C. Emery, Chairman of the Tariff Board, and Mr. Charles M. Pepper, Commercial Adviser to the Bureau of Trade Relations of this Department, are prepared at once to leave for Ottawa to discuss with the proper officers of the Dominion Government the business in hand; and that Mr. John G. Foster, Consul General of the United States at Ottawa, will be joined with Professor Emery and Mr. Pepper for that purpose. I beg to add for Your Excellency's information that I have telegraphed to Mr. Foster to arrange for such a conference at an early day.

Meantime, if at any time you think it would be helpful to these negotiations for us to discuss them in a general way, I shall be entirely at your disposition.

I have not failed to note the suggestion that the negotiations or discussion might, possibly, appropriately take place at an intermediate point between Ottawa and Washington, but in the absence of any special reasons, of which I am unaware, I deem it more practical that this entirely simple business be undertaken at a seat of Government concerned. I have, therefore, availed of your alternative suggestion that our representatives would be received with pleasure at Ottawa.

In expressing my appreciation of your valuable attention to this matter I take advantage of this opportunity to convey to Your Excellency the assurances of my highest consideration.

W. S. FIELDING.

From the Minister of Finance of Canada to the Secretary of State of the United States.

WASHINGTON, March 26, 1910.

The Honourable P. C. KNOX,
Secretary of State, Washington.

MY DEAR MR. SECRETARY,—In the conference which, upon his invitation, I had the honour to hold with the President of the United States at Albany a few days ago, it was represented to me that the settlement of our present tariff differences and the opening of the way for negotiations having in view a broader scheme of reciprocal trade would be facilitated by Canada making some reductions in its present scale of duties as applied to products of the United States. While unable to waive any of the contentions which Canada has held throughout our discussion of the subject, I have appreciated the exceptional circumstances and reasons advanced by the President in support of his request. A tariff conflict between the two countries would undoubtedly be a matter of the gravest concern for both, involving widespread disturbance of trade, heavy loss to citizens of both countries and the creation of much friction at a time when the cultivation of happier relations in most desirable. Both parties to the difference should, I realize, be willing to go as far as possible to avert such a conflict.

I have observed with satisfaction that your government are not disposed to press some of their earlier contentions respecting our commercial treaties which, from our point of view, we could not admit. This being the case, I feel that our government should go as far as possible to meet the views of the President and to respond to the good spirit in which he has approached the subject. On behalf of the Canadian Government I agree that we shall forthwith recommend to the Parliament of Canada such amendment of the Canadian Customs Tariff as will reduce the duties on the list of articles agreed upon between us, such articles and the reduced rates of duty being as follows:—

No. of Canadian tariff.		Reduced rates of duty.
94	Dates and figs, dried.. .. ..per 100 lbs.	55 cents.
99	Prunes and dried plums, unpitted, raisins and dried currants.. ..per lb.	¾ cent.

228	Soap powders, powdered soap, mineral soap, and soap, n.o.p..	32½ "
234	Perfumery, including toilet preparations, non-alcoholic, viz.:—hair oils, tooth and other powders and washes, pomatums, pastes and all other perfumed preparations, n.o.p., used for the hair, mouth or skin.. ..	32½ "

711	All goods not enumerated in this schedule as subject to any other rate of duty, and not otherwise declared free of duty, and not being goods the importation whereof is by law prohibited..	17½ "

Provided that duty shall not be deemed to be provided for by this item upon dutiable goods mentioned as 'n.o.p.', in any preceding tariff item.

Provided further that when the component material of chief value in any non-enumerated article consists of dutiable material enumerated in this schedule as bearing a higher rate of duty than is specified in this tariff item, such non-enumerated article shall be subject to the highest duty which would be chargeable thereon if it were composed wholly of the component material thereof of chief value, such 'component material of chief value' being that component material which shall exceed in value any other single component material in its condition as found in the article.

NOTE.

The abbreviation 'n.o.p.' means 'not otherwise provided.'

The words 'this schedule,' in item 711, mean Schedule 'A' of the Canadian Customs Tariff.

It is understood that these reductions are not to apply exclusively to the products of the United States, but that the Canadian Government are free to apply them to the products of any other country.

DEPARTMENT OF STATE, WASHINGTON, March 26, 1910.

The Honourable
W. S. FIELDING,
Minister of Finance of the Dominion of Canada.

MY DEAR MR. MINISTER.—The adjustment of trade relations between Canada and the United States under existing tariff legislation, conducted through you at the instance of the British Ambassador, and brought to a successful conclusion so largely through your own patient and earnest efforts, cannot fail to be a cause of mutual felicitation between the thoughtful people of both countries.

I am gratified that the recent tendencies towards a more perfect understanding between our respective countries, manifested so conspicuously in the maturing ad-

justments of boundary, boundary waters, fisheries and other long-standing differences, will not be affected by the irritations which would have resulted from our failure to agree upon the tariff question.

The agreement encourages the hope that the future trade relations of the two countries will become even more intimate and expanded, and will be regulated in a spirit of cordial reciprocation and interdependence. The common commerce now amounts to a vast sum, and its extraordinary growth is an index of the vast industry and commercial development among both peoples. It seems clear that this trade should be fostered so that the markets of each may be open to the other on the most advantageous terms possible for the interchange of commodities, and that such interchange undoubtedly can be promoted by the two governments without impairing their national economic policies.

The President is confident that the policy of broader and closer commercial relations with Canada will receive the hearty support of the large majority of the people of the United States, and he has learned with much satisfaction of the existence of a similar sentiment in the Dominion. It may be added that the conditions of the present day, as contrasted with the traditions of the past, are bringing into clearer light the truth that not only mutual trade interests but ethical and social considerations of the highest moment reinforce this common sentiment.

Let me, then, take this opportunity to express, by his direction, the desire of the President that your Government will find it convenient to take up with this Government, at such time and in such manner as may be mutually satisfactory, the consideration of a readjustment of our trade relations upon the broader and more liberal lines which should obtain between countries so closely related geographically and racially, as indicated by the President in his recent public utterances.

P. C. KNOX.

From the Minister of Finance of Canada to the Secretary of State of the United States.

WASHINGTON, March 26, 1910.

The Honourable,
P. C. KNOX,
Secretary of State, Washington.

MY DEAR MR. SECRETARY.—I have the honour to acknowledge receipt of your letter of this date.

The Canadian Government very heartily reciprocate your expressions as to the desirability of improving the commercial relations between the United States and Canada and will gladly avail themselves of the invitation of the President to take up with your Government, at such time and in such manner as may be mutually satisfactory, the consideration of a readjustment of these relations upon broad and liberal lines. The recent public utterances of the President in that direction have afforded much satisfaction to the Canadian people, who will receive with pleasure the formal confimation of them which is now conveyed to our Government through you. I am confident that your assurances will be received also with much gratification by His Majesty's Government in London who will find in them further evidence of the desire of the Government of the United States to maintain the most cordial relations with the British Empire.

Allow me to express for myself as well as for my colleague, Mr. Graham, who has been associated with me in the conference at Washington, the most sincere

thanks to the President and yourself for the cordiality of your welcome and the very frank manner in which you have discussed the questions that have engaged our attention.

W. S. FIELDING.

From Lord Grey to Mr. Bryce.

MONTREAL, P.Q., March 31, 1910.

SIR,—I have the honour to transmit, herewith, for Your Excellency's information, copies of the *Hansard* report of the debate in the House of Commons following the announcement by Mr. Fielding of the arrangement made with the United States with respect to the Tariff.

Your Excellency will, I am sure, see with satisfaction Mr. Fielding's expression of his deep appreciation of the valuable assistance rendered to Canada by Your Excellency in the matter.

GREY.

From Mr. Bryce to Lord Grey.

BRITISH EMBASSY, WASHINGTON, April 7, 1910.

MY LORD,—I have the honour to acknowledge the receipt of Your Excellency's despatch of March 31 enclosing a report of the debate in the House of Commons of Canada on the recent tariff negotiation with the United States. In conveying my thanks to Your Excellency for this report, I desire to say how much I appreciate what Mr. Fielding was good enough to say regarding the part taken by myself and by the staff of the Embassy in the various stages of these negotiations. To have had the opportunity of contributing to some extent to bring together the Representatives of the two countries by whose skill and wisdom the happy result embodied in these recent arrangements has been attained, and to have had opportunities of conveying to Your Excellency from time to time the various facts and conditions affecting the action of the United States Government, have been a part of my duties which I value very highly. I trust I may be permitted to congratulate Your Excellency and Your Excellency's Government upon a settlement which has not only maintained friendly relations between the two countries, but has had here in the United States the double effect of enhancing the respect felt for Canadian policy and statesmanship and of giving a further proof of Canadian good-feeling, a proof which is not lost upon the American people.
